Manual

Revised 4/2007 Version #2 4510-0001-5.0A

WARNING!

Toll fraud is committed when individuals unlawfully gain access to customer telecommunication systems. This is a criminal offense. Currently, we do not know of any telecommunications system that is immune to this type of criminal activity. AltiGen Communications, Inc. will not accept liability for any damages, including long distance charges, which result from unauthorized and/or unlawful use. Although AltiGen Communications, Inc. has designed security features into its products, it is your sole responsibility to use the security features and to establish security practices within your company, including training, security awareness, and call auditing.

NOTICE

While every effort has been made to ensure accuracy, AltiGen Communications, Inc. will not be liable for technical or editorial errors or omissions contained within the documentation. The information contained in this documentation is subject to change without notice.

This documentation may be used only in accordance with the terms of the AltiGen Communications, Inc. License Agreement.

AltiReport

Introduction

Call detail records (CDR) are an important source of information for call centers running PBX systems. Previously, AltiGen relied on third party applications for advanced CDR reporting. In OE 5.0, the CDR database is re-designed with more information that can be accessed with AltiGen's own reporting application, AltiReport.

AltiReport is a web-based reporting application that can generate up to 40 detailed CDR reports, including personalized reports according to agent, workgroup, and DNIS. A report summary and analysis is also available for each report.

Requirements

AltiReport can be set up on a Microsoft Windows Operating System. There is no particular requirements for Client machine. Any computer with proper web browser can be used as client machine; please verify the client system has a suitable web browser (Microsoft Internet Explorer 6.0 or above) prior to installation of AltiReport.

Requirements

- System must have OE/ACC or ACM 5.0A installed
- Installation must have External Logger 5.0A with Update1 (or above) and external CDR DB (Microsoft SQL Server 2000) setup.
- Separate server for AltiReport—do not install on to OE or ACM system. Minimum system requirement:
 - Pentium 2G with 512 MB RAM (1G of memory recommended)
 - 40G HD
 - Windows 2000/2003/XP
- AltiReport License— needs to be added to OE/ACC or ACM 5.0A system and registered.
- Java 2, Standard Edition (J2SE) SDK 1.4.2
- Tomcat 4.1.31

Installation

(The installation instructions are for Microsoft Windows OS only)

Important: If upgrading your system from 5.0 to 5.0A, whenever External Logger Service is installed, External Logger Service needs to be upgraded to the latest version (5.0A or above).

Installation

AltiReport requires the installation of Java 2, Standard Edition (J2SE) SDK 1.4.2, and Tomcat, before AltiReport can be installed. To begin installation of these applications, put the AltiReport CD into the CD-ROM, which will start the installation automatically. Or run the **AltiReport Installation** program (setup\AltiReportInstallation.exe) from the AltiReport CD.

1. Click the **Install J2SE 1.4.2_06** button to install Java 2, Standard Edition (J2SE) SDK 1.4.2.

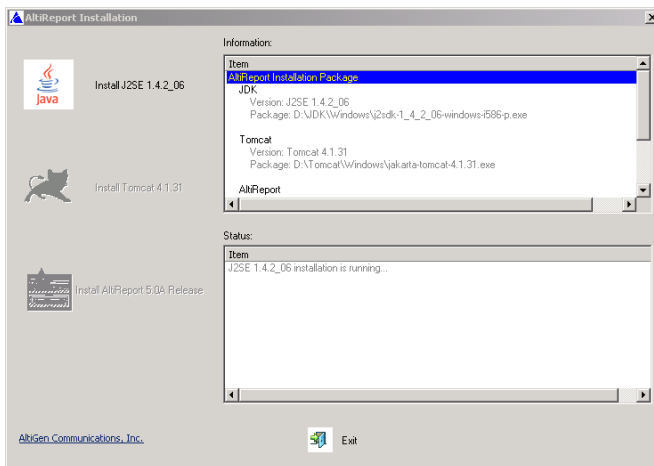

Figure 1. AltiReport Installation Wizard - J2SE Installation

After successful installation of J2SE , the Tomcat installation is enabled.

- Click the **Install Tomcat 4.1.31** button to install Tomcat 4.1.31.

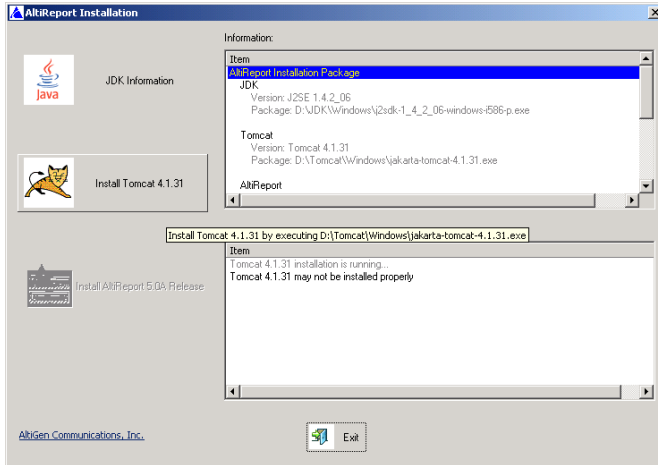

Figure 2. AltiReport Installation Wizard

- Before installing begins, the Tomcat License Agreement dialog box appears. Click **I Agree** to continue.

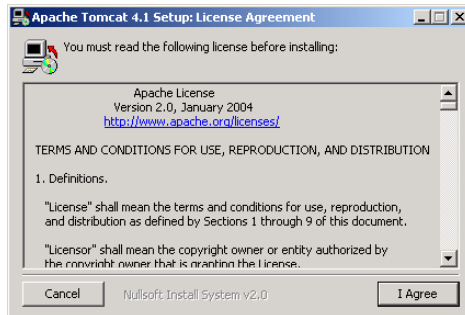

Figure 3. Tomcat License Agreement

- In the **Tomcat Setup Installation Options** dialog box, enable the checkboxes for:
 - *Tomcat*
 - *NT Service*
 - *JSP Development Shell Extensions*
 - *Tomcat Start Menu*
 - *Documentation and Examples*

Then click **Next**.

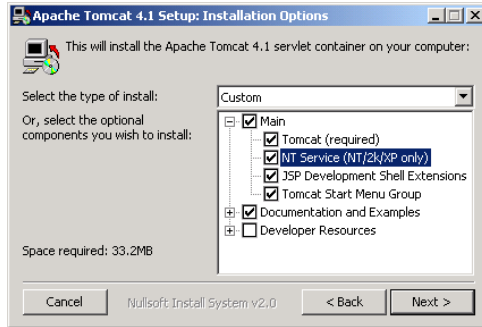

Figure 4. Tomcat Setup Installation Options

5. In the **Tomcat Setup Basic Settings** dialog box, enter the **HTTP/1.1 Connector Port**, and Administrator login **User Name** and **Password**, then click **Finish**.

Figure 5. Tomcat Setup Basic Settings

The HTTP Port defaults to 8080. If Port 8080 is not available, it can be changed to a different port, such as 80.

The **User Name** and **Password** are for Tomcat administration.

After successful installation of Tomcat 4.1.31, the AltReport installation is enabled.

- Click the **Install AltiReport 5.0A** icon to install AltiReport.

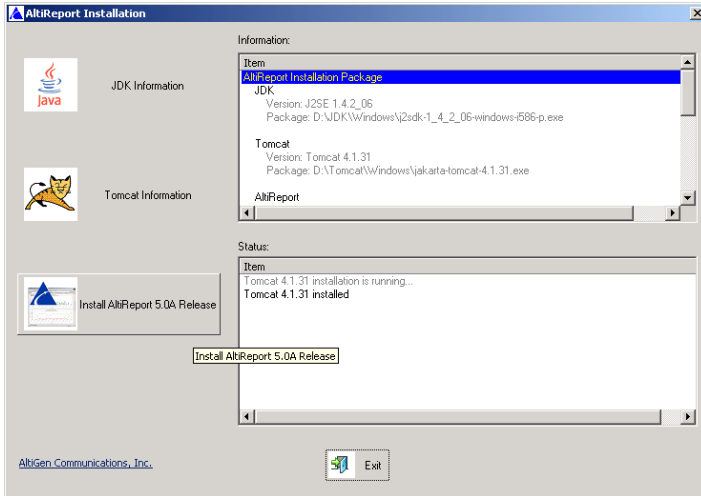

Figure 6. AltiReport Installation

- After successful installation of AltiReport 5.0A, reboot the system. You are now ready to set up AltiReport.

Accessing AltiReports Remotely

If AltiReport must be accessed from outside of the company, TCP port (Default 8080) of the machine must be opened at firewall and NAT

AltiReport can be accessed by URL:

- `http://<ip_address>:8080/altireport` or
- `http://<computer_name>:8080/altireport`

Overview

When logging into AltiReport, you can login as an **Admin** role to access AltiReport administrative and configuration or as a **User** to access reports or settings.

Important: For security purposes, if the AltiReport window is idle for 15 minutes or longer, the application will timeout and you will need to re-login.

Administrator Login

The AltiReport Administration screen is only available for users with administrative rights. The administrative may perform the following functions: change and existing user profile, add a new user, delete a user, view server connection parameters and AltiReport registration settings.

To login as an admin user, in the AltiReport Login screen, select the role as **Admin** and enter the administrator **Login Name** and **Password**, then click the **Login** button.

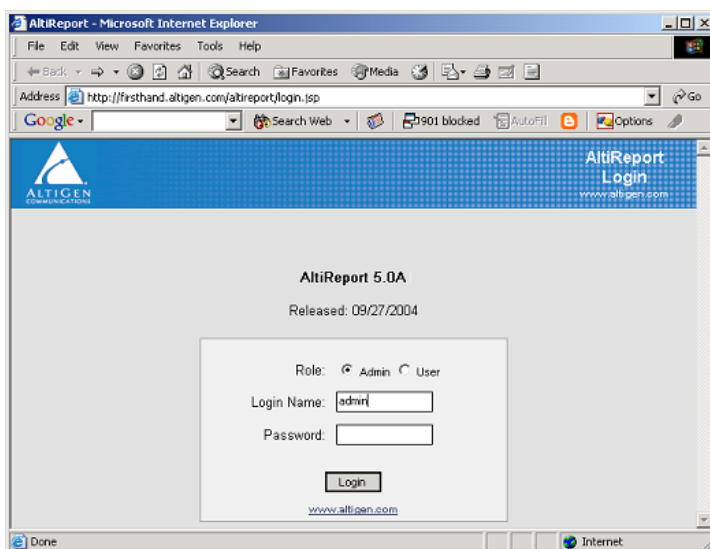

Figure 1. AltiReport Admin Login

The administrative main menu includes the following configuration functions:

- **Administrator Profile**
- **CDR Database Registration**
- **AltiWare Registration**
- **User Management**
- **Mail Server Configuration**
- **Backup and Restore**
- **Log Configuration**

The screenshot displays the AltiReport administration interface. At the top, the AltiGen logo and 'AltiReport www.altigen.com' are visible. Below the header, the user's login name 'admin' and role 'Administrator' are shown, along with a 'Log out' button. The main content area is divided into a sidebar and a main panel. The sidebar, under the 'Configuration' tab, lists several options: Administrator Profile, CDR Database Registration, AltiWare Registration, User Management, Mail Server Configuration, Backup & Restore, and Log Configuration. The 'Administrator Profile' option is currently selected. The main panel, titled 'Admin Profile', contains a table with the following details:

Administrator Account	admin
Email	tomliu@altigen.com
Phone	(510)252-8712
Company Name	AltiGen Communications, Inc
Street Address	4555 Cushing Parkway
City	Fremont
State or Province	CA
Zip	94536
Country	USA

An 'Edit' button is located at the bottom right of the profile table. At the bottom of the page, the URL '[www.altigen.com]' is displayed.

Figure 2. AltiReport Administration Menu Options

Administrator Profile

To enter or modify information for the administrator, click the **Edit** button to open the **Update Admin Profile** window.

Update Admin Profile	
Administrator Account	admin
Old password	
New password	
Confirm new Password	
Email	tomku@aligen.com
Phone	(510)252-9712
Company Name	Aligen Communicate, Inc
Street Address	4555 Cushing Parkway
City	Fremont
State or Province	CA
Zip	94536
Country	USA
<input type="button" value="Update"/>	

Figure 3. Update Admin Profile Window

Note: The **Administrator Account** field is not editable.

When the necessary information has been entered, click the **Update** button to save the changes.

CDR Database Registration

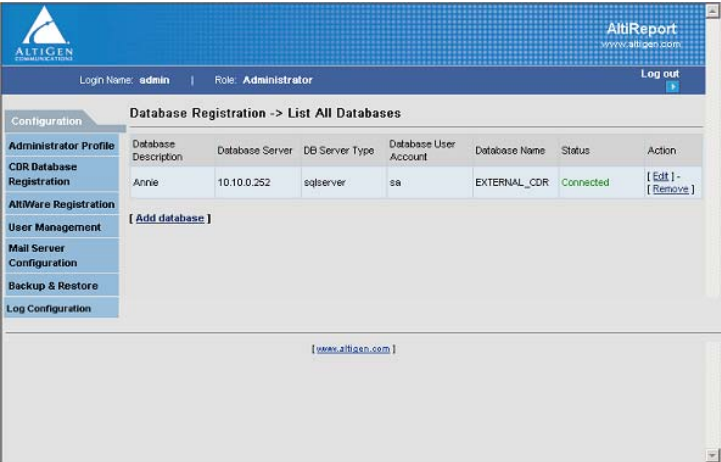

Figure 4. CDR Database Registration

In order for AltReport to access the external CDR database, the administrator must register a CDR database. To add a database, click the **Add Database** link in the CDR Database Registration window.

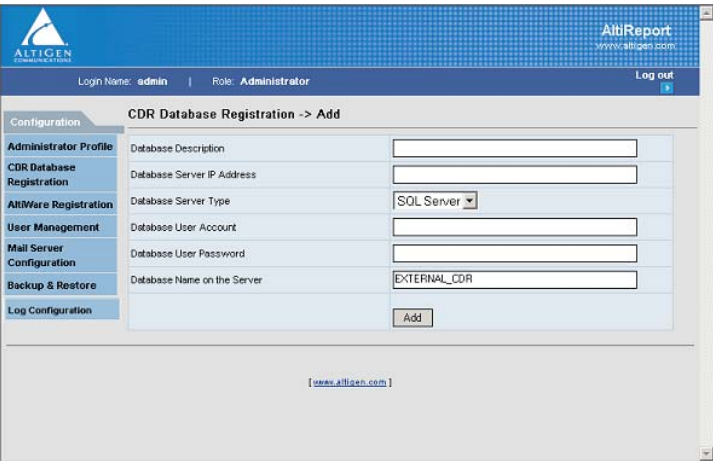

Figure 5. Add CDR Database Registration

In the **Add Database Registration** window, enter the necessary information in the blank fields for **Database Description**, **Database Server IP Address**, **Database Server Type** (SQL Server), **Database User Account**, **Database User Password**, and **Database Name on the Server**. Click the **Add** button when finished.

The status should show “*Connected.*” If not, use “Edit” in the Action column to change the DB setting.

To edit or remove an existing CDR Database, use the “Edit” or “Remove” link in the Action column.

AltiWare Registration

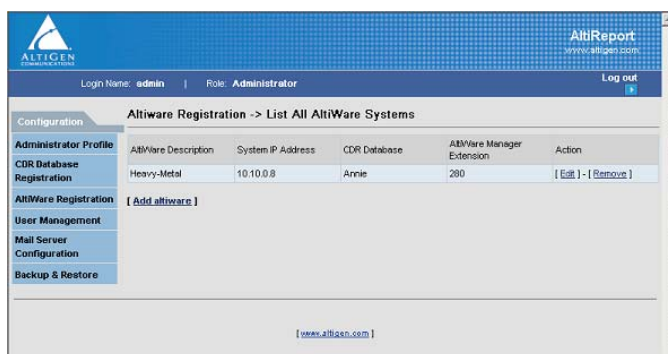

Figure 6. AltiWare Registration Window

AltiReport will use information entered in the AltiWare Registration window to check if AltiGen server has AltiReport license entered and registered. Each AltiGen server needs to have one license.

To add an AltiWare, click the **Add AltiWare** link in the AltiWare Registration window.

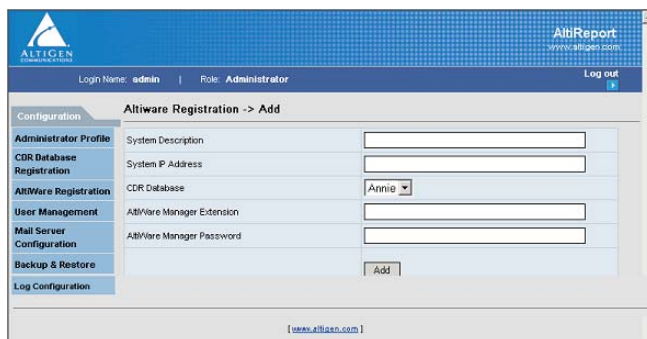

Figure 7. Add AltiWare Window

Administrator Login

In the **Add AltiWare** window, enter the necessary information in the blank fields for **System Description**, **System IP Address**, select **CDR Database**, **AltiWare Manager Extension**, and **AltiWare Manager Password**. Click the **Add** button when finished.

To edit or remove an existing AltiWare, use the “Edit” or “Remove” link in the Action column.

User Management

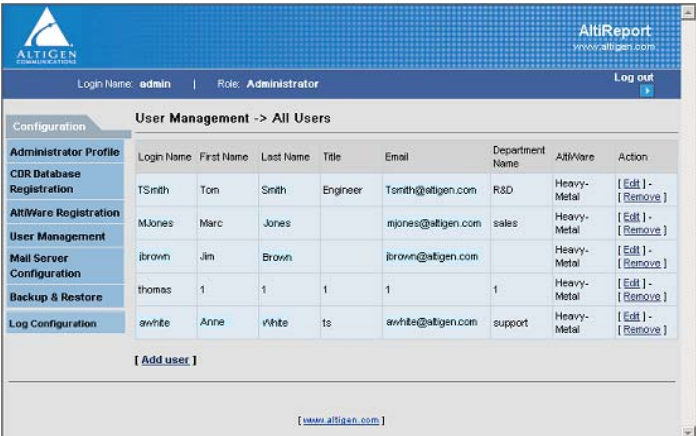

Figure 8. User Management

The administrator can add users to AltiReport using the **User Management** window.

To add an AltiReport user, click the **Add User** link at the bottom of the page. Enter the **Login Name**, **Password**, **First Name**, **Last Name**, **Title** (optional), **Email**, and **Department Name** (Optional) for the user. In the **Permission** field, use the check box to select at least one AltiWare system that the user will be able to access for AltiReport. Then click the **Add** button.

Figure 9. Add User - User Management Window

Mail Server Configuration

The administrator can configure an email server in Mail Server Configuration. AltiReport will use this email information for auto delivery of reports.

Figure 10. Mail Server Configuration Window

To add a mail server, click the **Edit** button on the Mail Server Configuration window to open the Mail Server Configuration Edit window.

The screenshot shows the 'MailServer Config' window in the AltiReport application. The interface has a blue header with the AltiReport logo and 'www.altireport.com'. Below the header, a navigation bar shows 'Login Name: admin' and 'Role: Administrator'. A sidebar on the left lists various configuration categories: Configuration, Administrator Profile, CDR Database Registration, AltiWare Registration, User Management, Mail Server Configuration (which is highlighted), Backup & Restore, and Log Configuration. The main area displays the 'MailServer Config' form with the following fields: 'AltiReport Server Name (DNS name or IP Address)' with the value 'dbreport.altigen.com'; 'Web Server or Tomcat TCP Port' with the value '80'; 'Sender Email Address' with the value 'dbreport@altigen.com'; 'Outgoing Mail (SMTP) Server' with the value 'dbreport.altigen.com'; 'SMTP Server Requires Authentication' with a checked checkbox; 'SMTP Account Name' with the value 'dbreport'; 'SMTP Password' with a masked field '*****'; and 'Send Test Message to this Email Address' with the value 'dbreport@altigen.com'. An 'update' button is located at the bottom right of the form.

Figure 11. Mail Server Configuration Edit Window

In the Mail Server Configuration Edit window, enter the necessary information in the blank fields for:

- **AltiReport Server Name** (DNS name or IP Address)
- **Web Server or Tomcat TCP Port**
- **Sender Email Address**
- **Outgoing Mail (SMTP) Server**
- **SMTP Server Requires Authentication** checkbox
- **SMTP Account Name**
- **SMTP Password**
- **Send Test Message to Email Address**

Click the **Update** button when finished.

Backup and Restore

Important: Uninstalling AltiReport or Tomcat will lose all configurations. If you need to uninstall AltiReport or Tomcat, back up configurations first.

The backup and restore functions in AltiReport will backup and restore configuration and settings from the Administrator Profile, CDR Database Registration, AltiWare Registration, User Management, and Mail Server Configuration windows.

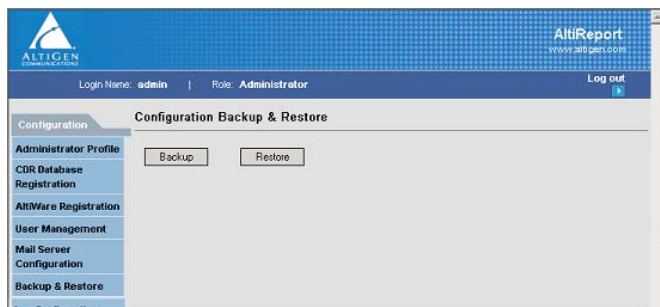

Figure 12. Backup and Restore Window

When **Backup** is selected, AltiReport will ask open a **File Download** dialog box, for you to open the AltiReport backup file (AltiReportYEAR/MONTH/DAY.zip) or save the file to your computer.

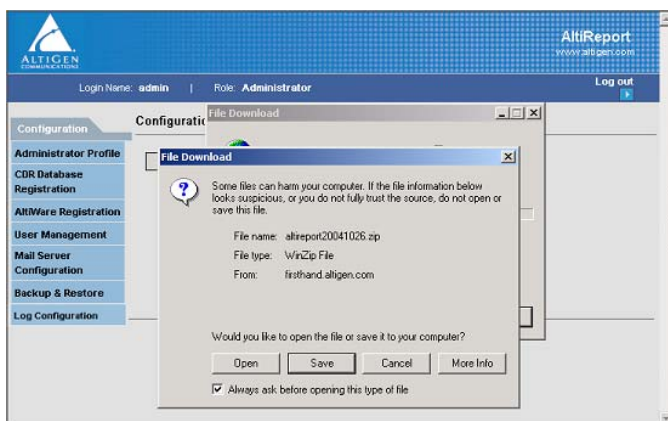

Figure 13. AltiReport Back Up

When **Restore** is selected, you will be required to validate the Admin Password, then click **Enter** to restore all previous configurations from the Administrator Profile, CDR Database Registration, AltiWare Registration, User Management and Mail Server Configuration windows.

Figure 14. AltiReport Restore

Log Configuration

The **Download Log File** button in the **Log Configuration** window allows you to download the AltiReport file as a log file. Use the **Enable** button to include debug information in the log file, then click **Apply**.

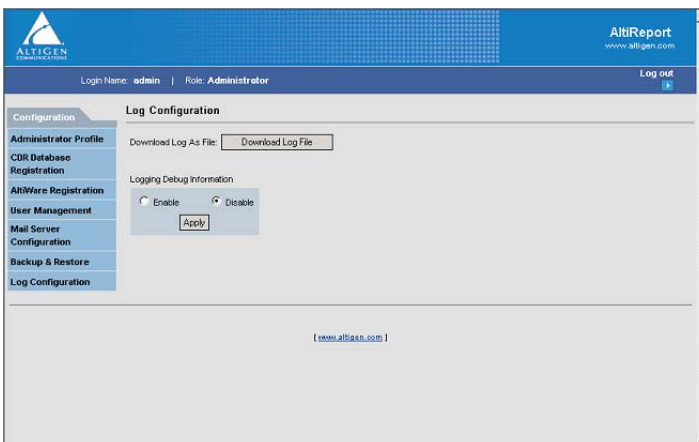

Figure 15. Log Configuration

User Login

The AltiReport User screen allows the user to generate up to 40 specific reports that can be printed or exported as a .CSV file.

To login as an general user, in the AltiReport Login screen, select the role as **User** and enter the administrator **Login Name** and **Password**, then click the **Login** button.

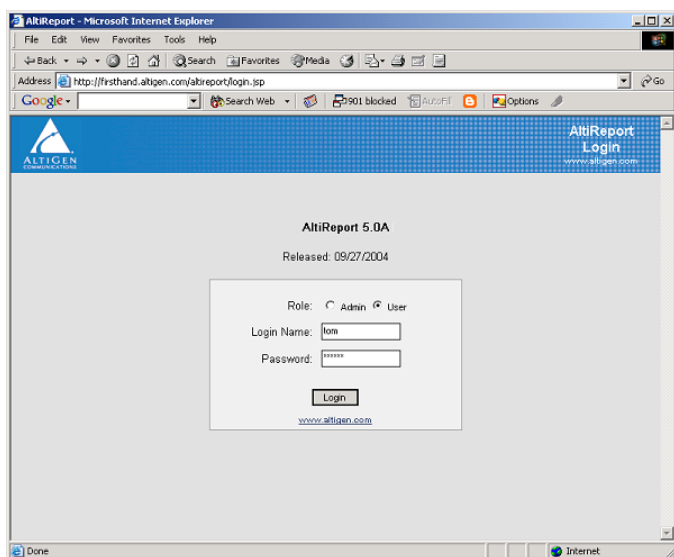

Figure 16. AltiReport User Login

Main Menu

The main menu displays when you are logged into AltiReport as a user. From here, you can access all aspects of the AltiReport reporting application based on the level of permissions or rights assigned to you by your AltiReport administrator.

The default window displayed when a user logs into AltiReport for the first time is the **User Profile** window. When reports are added to the Favorite Reports List, the **List All Favorite Reports** window will become the default window the *next* time the user logs into AltiReport.

The top of the window displays the **Login Name**, **Role**, and **Query Preference**. The main menu is divided into Group, Categories, and Sub-Categories.

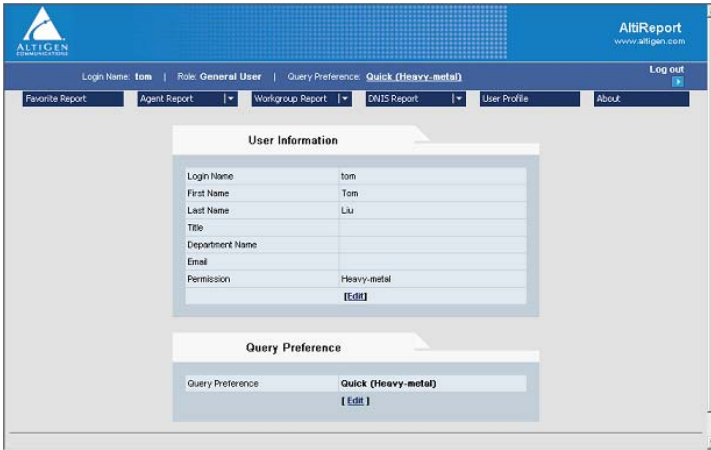

Figure 17. AltReport Main Menu

Groups

Groups are tabs located at the top of the menu. Clicking on a tab allows you to access reporting tools for that group.

- **Favorite Reports** - reports that are frequently run by the user.
- **Agent Report** - reports on all or individual agents within a site or workgroup.
- **Workgroup Report** - reports on all or individual workgroups within a particular site.
- **DNIS Report** - reports on all or individual DNIS.
- **About** - lists Altigen contact information.

Categories

Categories are report parameters located as drop-down lists from the **Groups** tabs displayed in the main menu. Based on the group you select, selecting a category from the drop-down list allows you to further filter the category for the report you wish to run.

Favorite Report	Agent Report	Workgroup Report	DNIS Report	User Profile	About

Reports

Navigation

To access a report:

1. From the Altireport main menu, select a category report menu (**Agent**, **Workgroup** or **DNIS**), then use the side menu bar to highlight

Reports

and specify the type of report (**Detail**, **Summary** or **Analysis**), then use the side bar menu again to highlight and open the desired report.

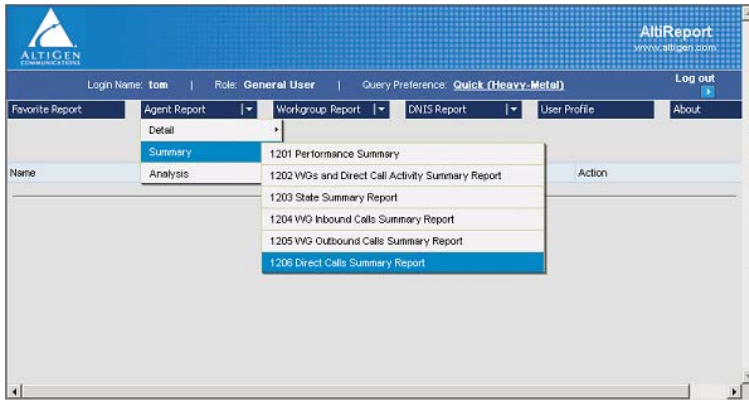

Figure 19. Report Navigation

2. Once the report is chosen, configure the parameters for this report, including the **Time Range**, **Filtered By** and **Output** options (**HTML**, **XML** or **.CSV** file).

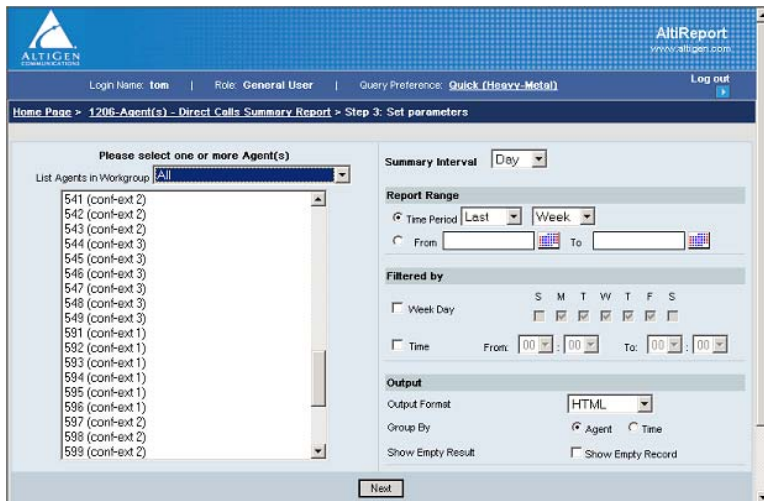

Figure 20. Configure report parameters

- After the parameters have been set, click the **Next** button and AltiReport will automatically generate the report results.

Figure 24. Add to Favorite Report Window

2. In the Add Favorite Report window, enter a **Name** and **Description** for the report, then click **Add**.

Figure 25. Add Favorite Report Window

3. This will add the report to the **Favorite Reports** section, where it will be listed under **List All Favorite Reports**. You can then run this report directly from this window, instead of having to find the report in the category menus.

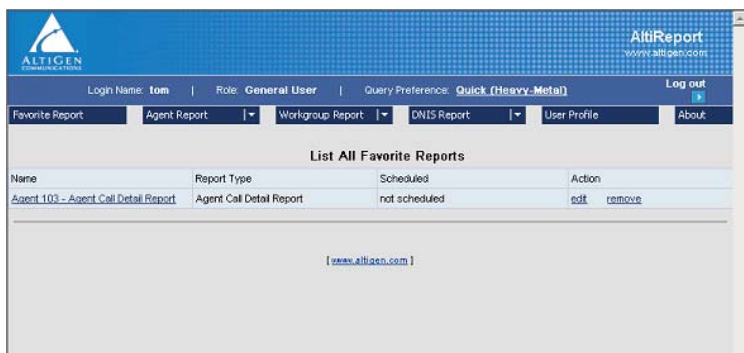

Figure 26. List all Favorite Reports Window

Note: When reports are added to the Favorite Reports List, the **List All Favorite Reports** window will be the default window the next time the user logs into AltReport.

Scheduling Favorite Reports

After adding a report to the Favorite Reports list, you can click on the **edit** option in the **List All Favorite Reports** window to open up the **Update Favorite Report Window**, where you can set up a schedule and email for the report.

Figure 27. Update Favorite Report Window

In the **Update Favorite Report** window, select a schedule for the favorite report. You can also configure an email address that AltiReport can send the report to.

Important: When setting up a report schedule for a specific time, the user must set the schedule at least 15 minutes before the current time or the report may not be generated/sent. For example, to run a report at 5:00 PM, you must set up the report schedule prior to 4:45 PM.

Printing Reports

To print a report, click on the **Web Print** button in the top left corner of the report's window.

Figure 28. Web Print Button

This opens a new web window.

Inbound Calls	Answered Calls	Abandoned Calls	Overhead/Wait for Call

Figure 29. Web Print Window

The Web Print feature will automatically adjust paper print size, layout and orientation. You can also manually change the margins using the black margin icons at any corner of the web page. Also, you can use the menu and toolbar at the top of the window, which allows you to print, set up the page for printing, zoom in/out, hide margins, or close the window.

Important: Before using the Web Print feature, make sure the **Print background colors and images** checkbox is enabled in the Internet Options of Windows (**Internet Options>Advanced>Settings>Printing**). Otherwise, the web report generated will be displayed, and subsequently printed, in black and white.

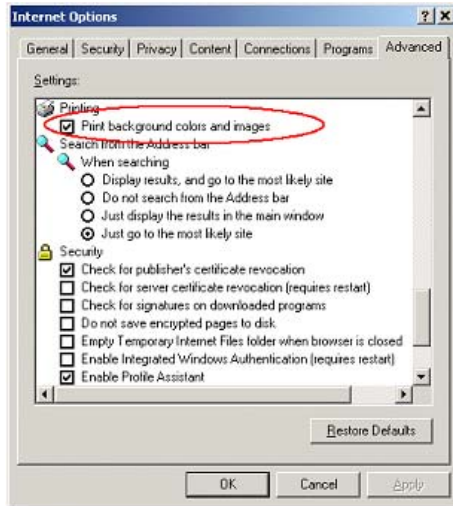

Figure 30. Print background colors and images checkbox - Internet Options

Saving Reports

To save a report outputted as an HTML format, use the **Save As** function in the Windows menu to save the web page.

Reports

For detailed information on database fields, refer to the CDR Manual.

Agent Reports

1101 - Agent Activity Event

The Agent Activity Event report displays the agent's activity.

2311 - Total & % Inbound Calls ANS/ABN/OFL

The Total & % Inbound Calls ANS/ABN/OFL report displays totals and percentages of inbound calls, including calls answered, abandoned and overflowed.

Hour-of-Day	Total Inbound Calls	Answered Call		Abandoned Call		Overflowed/Redirected Call	
		# of Call	% of Call	# of Call	% of Call	# of Call	% of Call
09:00-10:00	32	30	93.8%	1	3.1%	1	3.1%
10:00-11:00	22	18	81.8%	3	13.6%	1	4.5%
11:00-12:00	48	36	75.0%	8	16.7%	4	8.3%
<A>		<C>	<D>	<E>	<F>	<G>	<H>

Table
